PUBLIC STATEMENT OF JERRY BALENTIN

EIS000592

DEC 02 1999

MR. BALENTIN: I'd just like to say I'd like to see more information on the impact study than what's here. This seems like a real summary version, and it is unfortunate that we just got it here at the meeting because I understand that that's what the meeting is about is whether this is acceptable as a document to show the impact of it.

So that's all I'd like to say is I'd like to see more in-depth information on the transportation and the impact to the communities around the location where it's going to be stored. Thank you.
